Mr Eisenberg,

If you are rearranging the deck chairs on the titanic for my benefit,
(meaning moving your dumpster out of my line of sight)
you are missing the point...

The point being that if you are going to continue to rely on Clean San Pedro to save you
the cost
of disposing of large items left in the alley by the residents of your building
I will continue to work to have you found in violation of article III of the PBID charter.

And if Ms. Parker is going to continue colluding with you to accomplish this,
I will continue to propound that she is not fit to be employed by the board.

Bruce Ecker
